

Nav1.8 Cell Line Data Sheet

| Channel | NaV1.8 |
|--------------------|------------------------------------|
| Gene | SCN10A |
| Catalog Ref. | ICE-HEK-Nav1.8 |
| Sources | Human |
| Expression system | HEK293 |
| Method | whole cell patch clamp |
| Standard time | 2 weeks (<10cpds) |
| Reference compound | TTX ($2.90 \pm 0.803 \text{nM}$) |
| Target | Pain, Anxiety, Depression Related |

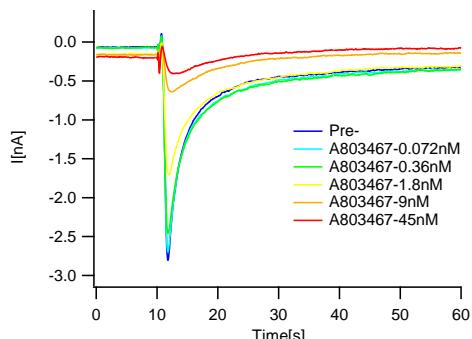

Figure 1. Current-voltage dependent curves of NaV1.8, in the absence or presence of TTX at different concentrations

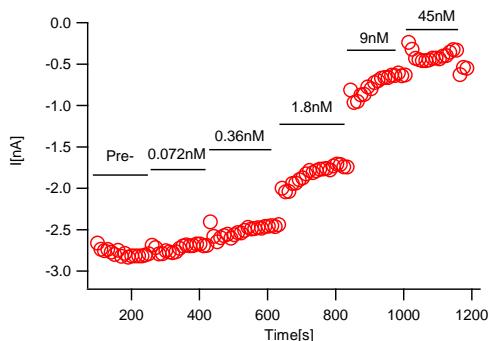

Figure 2. Current-time dependent curves of NaV1.8, in the absence or presence of TTX at different concentrations and wash out

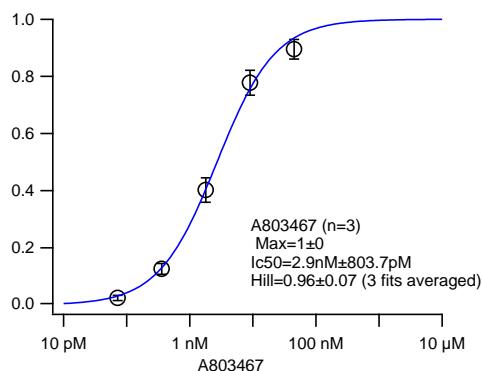

Figure 3. Concentration-dependent effects of TTX
